Frontend Career Path
NextJs from Scratch
Frontend Foxes Bootcamp

ABOUT ME

Front-End Developer with hands-on experience building and maintaining web applications using React, Next.js and related technologies. Skilled in creating responsive, user-friendly interfaces. Strong communicator with a background in sales, making it easy to connect with both technical teams and non-technical stakeholders.

WORK EXPERIENCE

FRONTEND DEVELOPER   **OCT 2024 – ONGOING**
BEECO

I am rebuilding our internal Admin platform—migrating from Angular to React, introducing new features, and enhancing performance and usability. I also work on the client-facing Partner app, focusing on feature development and bug fixes.

FREELANCER   **JAN 2024 – ONGOING**

Developed a tailored React/Next.js project for a women's health educator as well as other applications, including a personal portfolio and a job-search portal. I prioritize selecting the right technologies and services to match each client's requirements. I am also actively working on new projects to strengthen my full-stack capabilities.

SALES SUPPORT & DESIGNER   **APR 2015 – JAN 2023**
HAWORTH & MATERNITY LEAVE (2017–2023)

Support sales managers with design, specs, presentations, and space planning.

DESIGN ENGINEER   **NOV 2013 – APR 2015**
NOWY STYL

Develop 2D/3D space plans, design presentations, and quotes. Present concepts and manage customer relationships.
